

OHS

TOKA SAFE Performance

There is one LTI recorded during the month. Total LTI free hours after the last LTI in are **2.236.289** man-hours since last LTI on 10 March 2026.

Item	Description	Monthly	YTD	PTD
1.	No. Of Incident *	5	20	1327
2.	Total LTI	0	1	15
2.1	LTI - Lost Time Injury - Fatality	0	0	2
2.2	LTI - Lost Time Injury - Non Fatality	0	1	13
3.	Restricted Duty Injury – RDI	0	0	9
4.	Medical Treatment Injury – MTI	1	4	181
5.	First Aid Treatment Injury – FAI	0	5	407
6.	Near Miss – NM	4	10	715
7.	Property Damage	5	26	788
8.	All Injury Frequency Rate	1,10	2,81	6,17
9.	Lost Time Injury Frequency Rate (LTIFR)	0,00	0,26	0,15
10.	Lost Time Injury Severity Rate (LTISR)	0,00	3,32	1,94
11.	Days Lost	0	13	197
12.	Incident Frequency Rate	5,48	5,11	13,06
13.	Total Manpower	3.749	18.001	
14.	Total Working Hours	912.073	3.912.358	101.646.314
15.	Total Working Hours – Employees	123.720	-	-
16.	Total Working Hours – Contractors	788.353	-	-

**** Incident definition by ISO45001:2018 is occurrence arising out of, or in the course of, work that could or does result in injury and ill health (3.18).***

Statistik Kesehatan Kerja May 2026

Statistik Kesehatan Kerja Pertambangan			
May-26			
		MTD	YTD
Tingkat keparahan kesakitan (<i>morbidity frequency rate</i>)		1.10	5.62
Tingkat keparahan penyakit karena absensi (<i>absence severity rate</i>)		1.10	5.62
Rasio Kelayakan Kerja		10.16%	29.78%
Angka Kesakitan Kasar (<i>crude morbidity rate</i>)		0.03%	0.61%
Tingkat Keparahen Penyakit (<i>spell severity rate</i>)		1	1.00
Penyakit Akibat Kerja (PAK)		0.00%	0.00%
Total Surat Sakit (<i>spell</i>)		1	22
Total hari kerja hilang pekerja yang sakit (Tidak Termasuk Kecelakaan)		1	22
Total Kejadian Akibat Penyakit Tenaga Kerja (KAPTK)		0	0
Total Pekerja:			
- Layak bekerja (<i>fit to work</i>)		325	937
- Layak kerja dengan catatan (<i>fit with note</i>)		56	135
- Tidak layak kerja (<i>unfit</i>)		0	0
Total Pemeriksaan Kesehatan pekerja		381	1072
Total pekerja yang sakit (tidak termasuk kecelakaan)		1	22
Jumlah Pekerja yang Diduga PAK		0	0
Jumlah Pekerja yang Mengalami PAK		0	0
Total Tenaga Kerja		3,749	3,600
Total Jam Kerja		912,073	3,912,358

TOKA SAFE SUPERVISORY KPI Leading Indicator KPI or Site

Total Site Wide	16	12	75%	542	172	32%	31	58	187%	8	8	100%

- Leading Indicator
 - Hazard Identifications achievement by department:
 - >50% - <100%; Compliance, Environment, Process Plant, OHS, Metalurgy, Supply and Underground.
 - <50 % Exploration, Maintenance, IT, Mining, MTS and Principle Mine.
 - 0% GA, HC, Mining Operation, CSR, Commercial, Formalities, HC and Security.
 - Workplace Inspection – Total 8 WPI involving department has been conduct during the reporting period
 - PTO – Total 15 PTO involving by department has been conducted during the reporting period, consistent on PTO implementation maintaining the target and continue to follow up the corrective actions.
 - Communication – Facilitate 4x HSE Committee level 2, meetings lead by committee chairman were reported during the month.
 - There were 10 OHS incidents occurred during the month (1 MTI, 4 NM and 5 PD).

Safety Issues and Concerns

- Continue annual review the hazard identification, risk assesment and determain control for all Department and sections also create risk management register.
- Conduct a risk assesment of geophysic activities and helicopter operation.
- Regularly random vehicle inspection, speeding monitoring and alcohol test
- Continue facilitate outstanding incident investigation and INX event including hazard and OHS inspection program.
- Continue follow corrective action progress related external audit and mine inspector findings during the month
- Continue focus OHS observation Araren pit stage 8, Marawuwung pit, TSF and Marawuwung pit, Plant Site, Alaskar pit and Project activities.
- Create and review OHS standard operational: Site Access Procedure, Pengelolaan Tempat Kerja Berisiko Tinggi, Blasting Near Residential
- Facilitated HSE committee meeting level 2 area Mining, Process and Maintenance, Departement Support, Exploration.
- Faciliate internal training of ERT volunteer; High Angle Rescue (Vertical Rescue), Medical First Responder.
- Conduct inspection and maintenance of fire protection system: Fire pump, hydrant, sprinklert, fire alarm, smoke detector and fire extinguisher.

- Create and publish safety bulletin on topic: Road Accident Rescue, Be Hantavirus, Safe Use Electric Equipment, Safe Driving Behavior.
- Continue facilitate mandatory training; OHS General induction, Mining Induction, Process Plant induction, Hazid, Working at Hight and Confine Space.
- Coordination meeting PJO, OHS, Enviroment, MSD, Compliance and KTT regarding Site HSE Performance. Support the KTT conducted for annual evaluation of PJO
- Site Traffic Management: Random vehicle inspection and speed monitoring, Traffic sign inspection and maintenance.
- Conduct commissioning for vehicles and mobile equipment to ensure operational safety.
- Facilitate SIMPER training and competency assessments for operators.
- Continue Develop materi of internal training of Defensive Driving
- Conduct internal audit ISO45001 and ISO14001 for MSM TTN and Contractors
- Prepare document for survailance external audit ISO45001 and ISO14001 for MSM TTN

3 Month Outlook

- Continue facilitate to develop and review HIRADC (IBPR) for all departement
- Develop OHS procedure: ID procedure, Blasting Near Recidential.
- HSE committee level 2 meeting: Mining, Process, Support and Exploration departments
- Continue Implement ERT volunteer training and drill programs, including competency development for ERT volunteers.
- Continue inspect and ensur the readiness of ERT equipment, and identified equipment and personnel requirements based on operational needs and risk assessments.
- Continue facilitating mandatory training and evaluating training effectiveness.
- Develop and distribute safety campaigns, including safety bulletins/safety alerts and safety banners.
- Internal audit ISO 450001 and 14001
- Support Plant Shutdown activities: Manpower reparation (Pre-medical, HSE induction, Mandatory Training and HSE observation (Review JSEA, PTO)
- Develop and review the Pre-start check list digital of vehicles and bus, with Maintenance and GA
- Facilitate internal Defensive Driving training for LV and Bus Drivers

ENVIRONMENT

ENVIRONMENT

1. Environmental Performance

- Environmental Incident : No environment incident.

- **Environmental Hazards** : Identified and documented 15 hazards. Key focus areas include land contamination and impacts on surface water.

2. Environmental Management

- Land Disturbance, Reclamation and Biodiversity

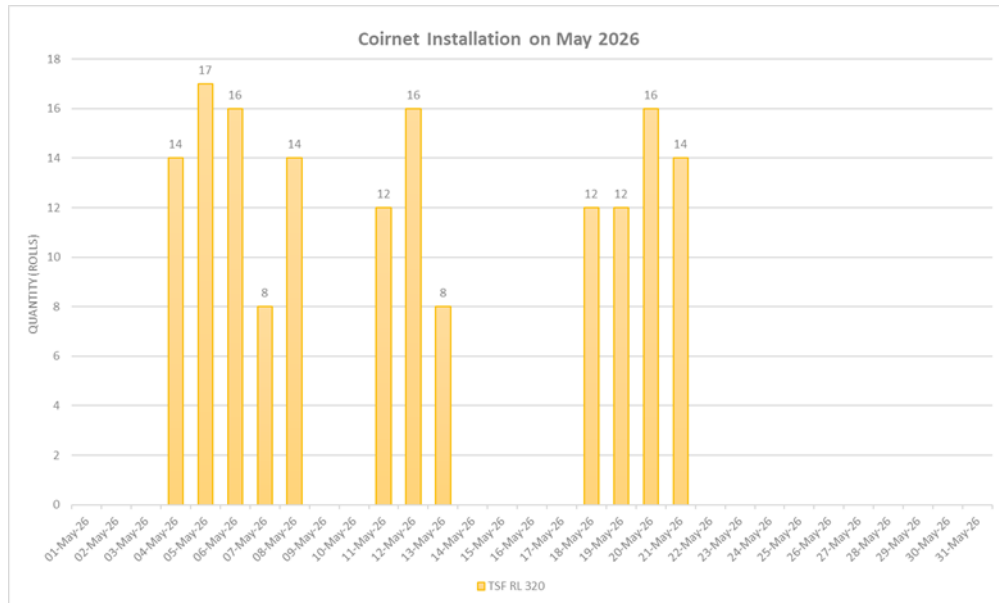

Land Clearing Progress in May 2026

Company	Target 2026	This Month	YTD	PTD	Progress (%)
	(ha)	(ha)	(ha)	(ha)	
Land Clearing					
PT MSM	37.8	3,52	38,41	917.68	102%
PT TTN	25.62	3,06	4.79	399.01	31%

Reclamation and Re-disturb Progress in May 2026

Company	Target 2026 (ha)	This Month (ha)	YTD (ha)	PTD (ha)	Progress
					(%)
Reclamation					
PT MSM	18.9	0.00	2.39	94.76	12.6%
PT TTN	9.59	0.00	0.00	94.72	0.0%
Re-disturb of reclamation areas					
PT MSM	-	-	0.00	70.85	0.0%
PT TTN	-	-	0.00	19.91	0.0%
Total remain of reclamation area after re-disturbed					
PT MSM	91.23				
PT TTN	74.92				

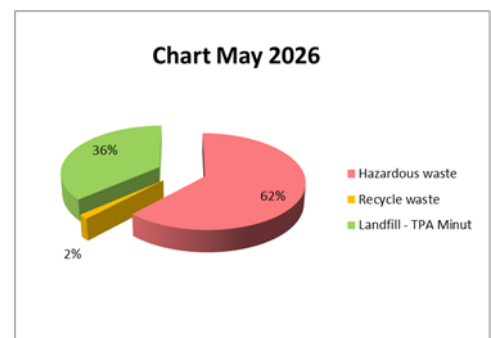

- **Biodiversity & Erosion Sediment Control**
 - Maintaining and monitoring seedling at nursery, prioritizing the collection of local *Angsana Pterocarpus indicus* as seed stock.
 - Monitoring erosion rates in reclamation zones and maintaining the Marawuwung settling pond.
 - Collaborative development of sustainable nursery and maggot facilities at TRIED CSR.
 - Completed Trees planting in TSF RL 299 (PPKH area)
 - Implementing slope stabilization (coco-mesh and sticky-slopes) 159 rolls at hanging drain TSF 320.

- Waste Management

Waste Produced in May 2026

No.	Kind of waste	Unit	Total
1	Hazardous waste		
	- Liquid waste (oil used, etc.)	Ton	33.75
	- Solid waste (oily rugs, oil filter, etc.)	Ton	18.88
2	Recycle waste		
	- Used Drum	Ea	30
	- Used Tyres	pcs	20
	- Cardboard	Ton	-
	- Scrap paper	Ton	-
	- Water gallon lids	Kg	3.5
	- Plastic	pcs	52
	- Cans	Kg	0.15
	- Bottle glass	pcs	-
	- Composting	Ton	-
3	Waste/rubbish disposed to landfill		
	- Inorganic mixed	Ton	17.24
	- Organic mixed	Ton	13.64

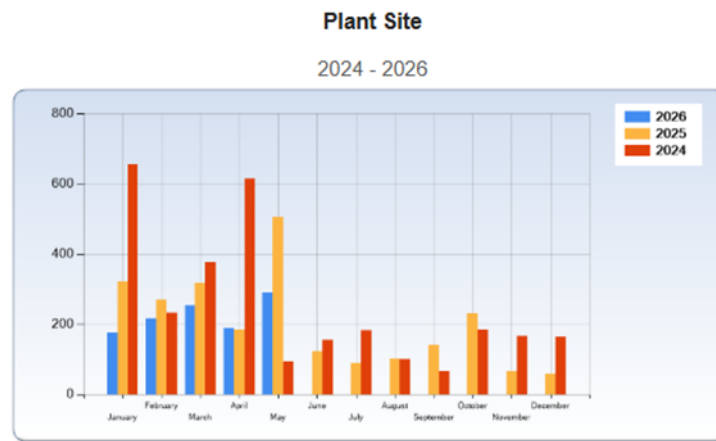

- Environmental Monitoring Highlights

- Weather Monitoring

During this month rainfall is recorded in all station areas and the highest rainfall is recorded in Kopra station area with 350.5 mm. Figure 12 shows the comparison of the last three years in monthly basis from Plant site station.

Comparison of Rainfall at Plant Site for the Last 3 Years

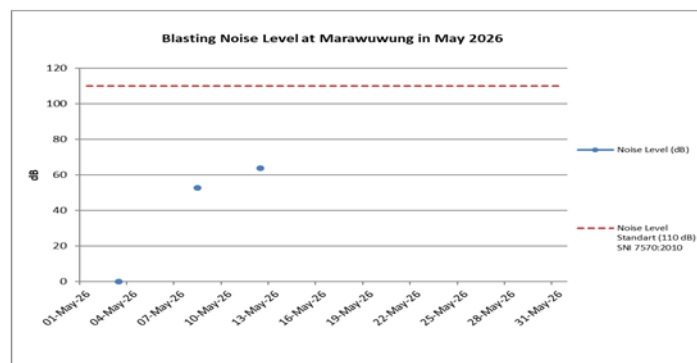

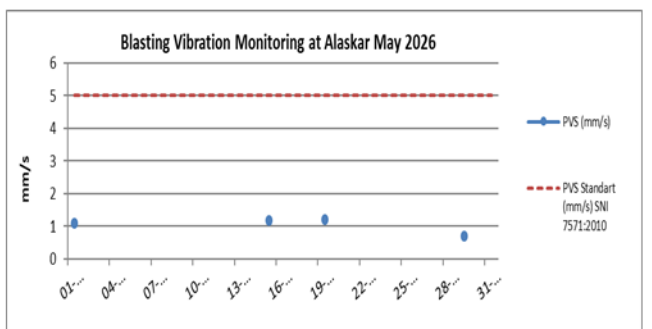

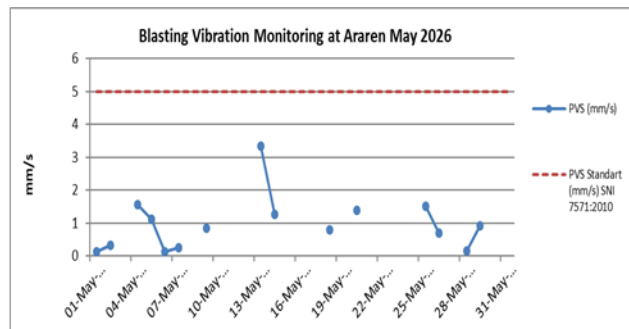

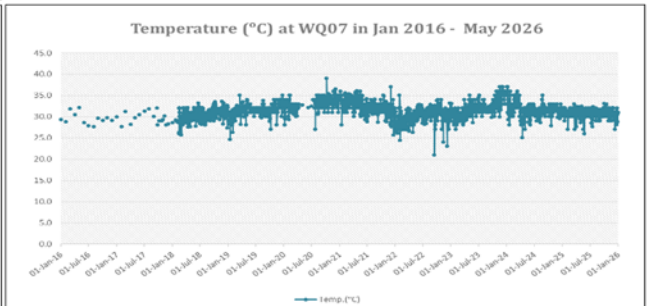

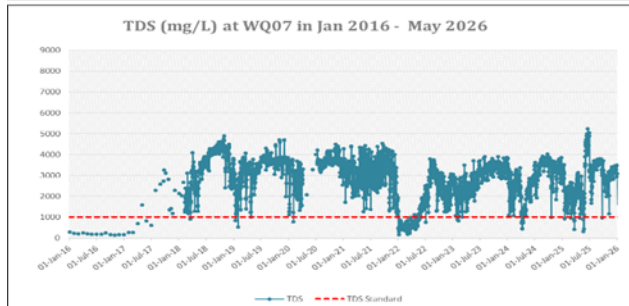

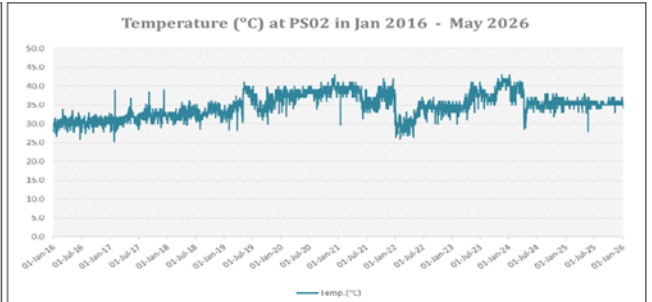

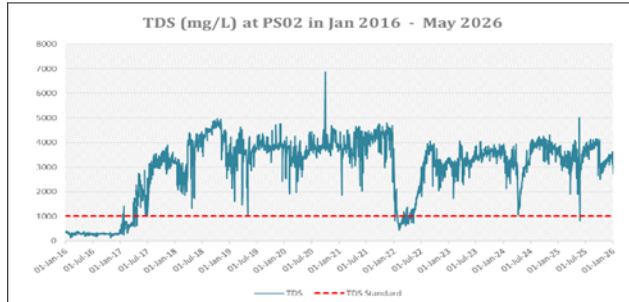

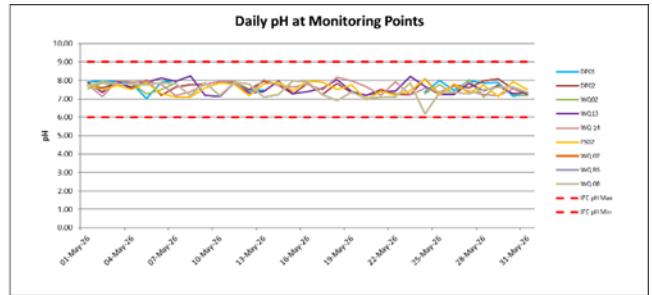

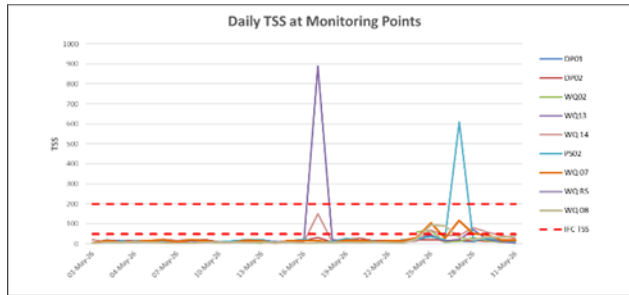

Rainfall Summary in May 2026

Description	Maesa	Plansite	Pajajaran	Kopra	Araren	Alaskar	TSF	Marawuwung
Total Rain Fall	170.5	310	314.5	350.5	266.5	318.5	350	184
Year to Date	1103.5	1146	1185.5	1294.5	1104.5	1118	1416.1	1159
Max. Daily Rainfall	43	72	81	99	72	78	53	38
Total Raindays*)	18	20	22	23	23	24	23	19
Total Wet Days**)	6	10	12	12	13	12	13	10

Note : *) = Daily Rainfall > 0.1 mm; **) = Daily Rainfall > 5 mm

- Surface Water

- ✓ The results of monitoring the quality of wastewater at the compliance point DP 01 and DP 02 are comply with the environmental quality standards in accordance with environmental quality standards as per the Decree of the Ministry of Environment and Forestry, Directorate General of Pollution Control and Environmental Damage, No S.233/PPKL/PDA/PKL.2/3/2023 regarding the Technical Approval for Compliance with Wastewater Quality Standards Discharged into Surface Water Bodies of PT Meares Soputan Mining.
 - ✓ The result of monitoring the quality of surface water during this period generally met environmental quality standards. TSS levels in Marawuwung River, Araren River, Pangisan River, Kayuwaler River in May 2026 were higher than 50 ppm on some days due to heavy rain and runoff from hauling road.
 - ✓ Highlighted environmental performance as shown in the graph below.

3. Environmental Issues and Concerns

- **Water Quality Mitigation:** Efforts are ongoing to address elevated levels of Temperature, TDS, Chloride, Sulfate, Arsenic, and Boron in Araren pit water. Current concentrations exceed surface water quality standards due to natural spring water inflows.
- **Monitoring Constraints:** Water sampling at the WQRs station remains suspended due to ongoing community relations issues.
- **Reclamation Performance:** Current reclamation progress is significantly behind the YTD 2025 targets reported to the government. Immediate coordination with the Mining Engineering Team is required to identify available areas and align with the 2021–2026 approved reclamation plan.

4. Month Outlook

- Prepare environmental regulatory reports, such as:
 - **Wastewater Management:** Submit online and offline monthly discharge reports for DP 01, DP 02, and DM 01.
 - **Quarterly Submissions (Q2 2026):**
 - Wastewater quality reports for MSM compliance points (DP 01, DP 02, DM 01).
 - Hazardous waste (B3) storage and realization reports for MSM.
 - Tailing storage facility (TSF) progress reports for MSM.
 - **Biannual Submissions (Semester I 2026):**
 - RKL-RPL performance reports for both MSM and TTN.
 - UKL-UPL exploration activity reports for TTN.
 - Air emission monitoring and land-use reports for MSM and TTN.
 - Update online report on SIMPEL and PELITA
- Maintain ongoing reclamation and maintenance efforts for trees planted in the 2021–2025 reclamation areas at MSM and TTN, ensuring they meet the technical requirements for the ESDM Reclamation Success Evaluation in 2026.

Rehab DAS / Watershed Rehabilitation

- **Rehab DAS Document**
 - Continue and follow up on the basic rehabilitation of the PT MSM watershed area.
 - Continue social mapping and community social approach for the rehabilitation of watershed areas covering 312 ha and 581 ha.
 - Continue the implementation of the phase-2 maintenance activities in 12 plots within the river channel rehabilitation area covering 312 ha.
 - Continue paying invoices for nursery maintenance activities (PO) 2 in the watershed nursery rehabilitation area covering 581 ha.
 - Complete invoice payments for Plant Maintenance (P1) activities in the watershed rehabilitation area covering 312 ha.
 - Complete the preparation of the Maintenance Minutes (BA) for nursery maintenance (PO 2) in the watershed rehabilitation area covering 581 ha for the PO 2 invoice payment.
 - Complete the preparation of the implementation report for phase-2 maintenance activities in the river channel rehabilitation area covering 312 ha.
 - Completed to Preparation of an Activity Report for All Project Areas to Support the Site Visit of Commission IV of the DPR RI and BPDAS Tondano

- **Rehab DAS Issues and Concerns**

- Continue & follow up on watershed rehabilitation baseline for 312 ha and 581 ha of PT MSM watershed rehabilitation area.
- Continue the preparation of the progress report on the 312-ha watershed rehabilitation activities and discussing the land transfer strategy for 2026 with the Tondano Watershed (BPDAS).
- Continue the coordination meeting with the Tondano Watershed Management Agency (BPDAS) to update the completion of planting and geotagging activities in the 312 & 581 ha area.
- Continue preparing Plant Maintenance Activities (P2) in the watershed rehabilitation area covering 312 ha, which will begin in June 2026.
- Completed the construction of stilt houses as an initial step in the watershed rehabilitation activities in an area covering 581 ha, which can subsequently be continued with socialization activities for the start of planting (100% progress).
- Completed planning the accommodation for socialization activities for the start of planting and supervisory visits by the government and the House of Representatives Commission IV for the implementation of watershed rehabilitation by PT. MSM.
- Completed monitoring the maintenance progress in the watershed rehabilitation area covering 312 ha.
- Completed the second phase (P1) of plant maintenance in plots 1-12 that have been maintained, with a total of 197,154 trees (312 ha), which will be continued with the second phase (P2) of plant maintenance.

- **Month Outlook**

- Coordinate with CV. Culture Mandiri regarding the progress of stage 2 maintenance activities and preparations for monitoring toward the handover of land in the 312-hectare watershed rehabilitation area.
- Following up on the bimtek P0 2 on the 581 ha area & following up P2 (maintenance plant) in 312 ha area.

MANAGEMENT SYSTEM DEVELOPMENT

Highlights

- Develop, review and approval TOKA SAFE management system procedures, forms, attachments and template such as:
 - Documen Procedure system have been draft for review:
 - TT-MGT-PRS-029 Mine Safety Administration Management
 - Revision Documen Procedure system :
 - TT-MGT-PRS-012 Pengelolaan Operasional Pertambangan (Approval)
 - TT-MGT-PRS-016 Pengelolaan Keselamatan Operasi Pertambangan (Approval)
 - TT-MGT-PRS-025 Penyelidikan Insiden_(Review by OHS)
 - Procedure have been approved
 - 1 SWI Exploration :
 - TT-EXP-SWI-051 Sample Rock Cutting
 - Plan, Procedure, SWI and COP have been draft for review:
 - 9 Procedure Opration OHS
 - TT-OHS-PLN-005 Employee Health Management Plan (Draft)
 - TT-OHS-PRO-016 Plan Task Observation – PTO (Draft)
 - TT-OHS-PRO-024 Area Warden (Draft)
 - TT-OHS-PRO-002 Mobile Plant Vehicle Commissioning Approval (Review)
 - TT-OHS-PRO-035 Speed Limit Monitoring (Draft)
 - TT-OHS-PRO-057 Penilaian Calon Instruktur dan Penguji (Draft)
 - TT-OHS-PRO-054 Higiene dan Sanitasi (Draft)
 - TT-OHS-PRO-055 Pengelolaan Makanan Minuman dan Gizi Pekerja (Review)
 - TT-OHS-PRO-059 Pengelolaan Tempat Kerja Berisiko Kesehatan Tinggi (Review)
 - 8 Procedure Operational Underground;
 - TT-UNG-PRO-001 Pengenalan dan Keselamatan Dasar Bekerja di Underground
 - TT-UNG-PRO-203 Operation and Cleaning of Concrete Agitator & Agitator Bowl Vehicles
 - TT-UNG-PRO-401 UG Daily Geotechnical Inspec Face Mapping
 - TT-UNG-PRO-501 UG_Underground Markup Development Face
 - TT-UNG-PRO-502 UG_Underground Survey pick up Development Face
 - TT-UNG-PRO-503 UG_Underground Pengukuran Konrol Point di dinding
 - TT-UNG-PRO-504 UG_Kalibrasi Internal Leica Total Station
 - TT-UNG-PRO-505 UG_Pengukuran Poligon Survey Underground
 - 4 Procedure Drill & Blast
 - TT-MNG-PRO-001 Pembuatan Design Pengeboran dan Peledakan
 - TT-MNG-PRO-002 Pengambilan dan Pengembalian Bahan Peledak
 - TT-MNG-PRO-005 Pembuatan Design Pengeboran dan Peledakan

- TT-MNG-PRO-006 Prosedur Pengaturan Pelaksanaan Peledakan
 - 1 Procedure MTS –Dewatering
 - TT- MTS-PRO- 221 Perhitungan Recovery Penambangan (Review)
 - 2 Procedure Operational HC
 - TT-HCA-PRO-006 Pengelolaan Pelatihan dan Kompetensi
 - TT-HCA-PRO-028 Perjalanan Dinas Dalam Kota (Approval dept Head)
 - 1 Procedure Finance
 - Asset &Scrap Management
 - 1 Procedure CSR
 - TT-CMT-PRO-001 Program CSR (review/Approve CSR)
 - 4 Procedure Supply Chain
 - TT-SCM-PRO-006 Inventory Management (Review)
 - TT-SCM-PRO-007 Penerimaan Barang (Review)
 - TT-SCM-PRO-008 Pengeluaran Barang (Review)
 - TT-SCM-PRO-009 Consignment Management (Review)
 - Manhours Collection for HSE & F Monthly Report and Toka Flash Performance Report.
 - Follow up External Audit Finding (ISO 45001 and ISO 14001)
 - Develop Commissioning Database Online Request
 - Develop Online First Aid Online Inspection Checklist on TOSAR
 - Follow up operational procedures with departments – (Focus on coaching Mining, FMS and MTS)
 - Preparation data for External Audit ISO 45001 and 14001 – Mapping Data and Records needed for audit to be use as a guidelines for PIC department.
 - Evaluation of PJO (PT SMA)
 - Conducted SMKP Training awareness for contractors and coaching PJO on audit close out
- **Formalities**
 - Document approval for KTT (Memo, Procedures, Letter, contract, ESC, Report)
 - Assist the candidate for PJO at PT MFI, PT TTW (MSM)
 - Follow up Waster findings 2026 and submitting follow-up to Minerba
 - Application for KPP Madya submitted on May 2026 has been approved (1-TTN)
 - KIM application on May 2026 has been rejected (3-TTN-PT Macmahon)
 - Update Benneficial Ownership letter for KIM, KPP Madya application requirement
 - Socialized related PJO be-weekly report
 - Update KIM and KPP Madya register
 - Evaluation PJO PT SMA
 - PJO Meeting Coordination on May 2026

- **Administration :**

- a. PR, PO, Invoice and CTA approval of OHS(2) and Environmental(18)
- b. Arrange the Travel Request of FIFO HSE & Formalities Staff(8)
- c. Reservation(40) & Notification(6) as request by Enviro, OHS and Formalities
- d. TOR(10) & update to PR (8) as request by Enviro, OHS and Formalities
- e. Closing timesheet May 1-31, 2026 period.
- f. Expense report(12) for HSE-Formalities
- g. Roster & RR balance of outstanding for FIFO HSEF of May 2026 period (8)
- h. Arrange PAMITS Entry For All Visitor Under HSEF(31)
- i. Supporting Visitor needs under HSEF (8)
- j. Hazardous waste supporting document May 2026(9)
- k. Support for Project DAS (2)
- l. Appointment Letter Process For Contractor(2)
- m. Support Project for appointment Letter by Web
- n. Participate at Secretary WED 2026
- o. Create Capital Expenditure Request (1)

Issues and Concerns

- Integrated Audit Implementation for departments and contractors
- Socialization of procedure system to all departments; develop digital media for socialization.
- Supporting Department on operational procedure development and standard work instruction development and approval. (Maintenance Departemen, and Mining Underground especially)

3 Month Outlook

- Assist department on finalization of department operational procedure and SWI.
- Follow up the SMKPA audit finding and ISO 45001 & 14001 Audit Finding.
- Preparation for Surveillance Audit ISO 45001 and ISO 14001
